WORK EXPERIENCE

10/2019 - 02/2020

Industrial Design Intern
TDLink, HongKong, China

Participate in the ideation for the Maxview product line - AR glasses for the inflight entertainment system. The proposal of adding the noise reduction over-the-ear headphone was adopted. Provide a branding strategy that highlights the user experience and product concept.

06/2019 - 08/2019

Industrial Design Intern
CVTE, Guangzhou, China

Delivered design proposals for three projects, including a stereo system for meeting rooms, an augmented reality glasses for the police department, and a rechargeable battery. Worked along the entire process from concept to product development in a technology-driven company.

09/2018 - 12/2018

UI/UX Consulting
CUBE Consulting, Champaign, US

Conducted UI / UX design consulting for Simverse by Illinois Rocstar, a cloud-based simulation software. Participated in a five-member team conducting user testing and provided feedback to Simverse's workflow and user interface.
